

**REMARKS**

An initial sequence listing in paper and computer readable form is attached to this paper. The specification has been amended to properly include the sequence identifiers. Please note that the underlining under the sequences (Table 1) and the molecular weights (Table 2) was present in the original text and does not indicate added material. No new matter is introduced by means of these amendments.

In the event that this paper is not considered to be timely filed, the Applicant respectfully petitions for an appropriate extension of time. Any fee for such an extension together with additional fees that may be due with respect to this paper, may be charged to Counsel's Deposit Account No. 02-2135.

Respectfully submitted,
